[2017 New Easily Pass 70-334 Exam With Lead2pass New Microsoft 70-334 Brain Dumps (16-30)

2017 May Microsoft Official New Released 70-334 Dumps in Lead2pass.com! 100% Free Download! 100% Pass Guaranteed! Lead2pass is ready to provide Microsoft candidates with 70-334 exam dumps which can be very helpful for getting Microsoft certification, which means that candidates can easily get access to the services of Microsoft 70-334 exam dumps, which will assure them 100% passing success rate. With Lead2pass 70-334 exam dumps, it will be easy to pass your 70-334 exam at your first time. Following questions and answers are all new published by Microsoft Official Exam Center: http://www.lead2pass.com/70-334.html QUESTION 16   The London site facilities had a power issue that prevented users from accessing any service in th.it data center. You need to review the proposed design so that Skype for Business will be resilient to this kind of issue.   You need to plan the solution.   What should you do? A.   Deploy an additional Front End pool in the London Site and pair it with the primary Front End pool.   B.   Deploy an additional Front End pool in the secondary site and pair it with the primary Front End pool. Split the users between the pools.   C.   Deploy a Standard edition server in the London Site and pair it with the primary Front End pool.   D.   Deploy an additional Front End pool in the available secondary site and pan it with the primary Front End pool.Answer: C   QUESTION 17   You need to implement the dial-in conferencing request raised by the Design Director in Rome.   What should you do? A.   Set the primary language of the global conferencing policy to Italian (Italy).   B.   Associate the global conferencing policy with the correct dial-in conferencing region.   C.   Set the primary language of the Italian trunk configuration to Italian (Italy).   D.   Associate the Italian dial plan with the correct dial-in conferencing region. Answer: D   Case Study 4 - Contoso, Ltd (Question 18 - Question 24)   Overview   General Overview   Contoso Ltd. is an international manufacturing company that has 30 000 users. Contoso has the following departments: sales, research, marketing, human resources, executive, manufacturing, and legal. The sales department has 2.000 users. All of the users in the sales department are located in the United States. The research department has 3.000 users. All of the users in the research department are located in Europe. Physical Locations   Contoso has two main offices. The offices are located in Houston and Frankfurt. Each office has 15.000 users.   The offices connect to each other by using an MPLS network. Each office connects directly to the Internet. Existing Environment   Lync Server Infrastructure   Contoso has a Lync Server 2013 infrastructure that only uses internal instant messaging (IM) and presence. The infrastructure contains a single Enterprise Edition Front End pool that services all of the users.   Contoso uses a SIP domain ofcontoso.com for all of the users. Client computers have either Microsoft Lync 2010 or Microsoft Lync 2013 installed. Before deploying Skype for Business Server 2015 and migrating the users, you implement a small pilot project to test the functionality of Skype for Business Server 2015. Problem Statements   The users in the pilot report that occasionally, they cannot sign in to Skype for Business 2015. Requirements   Business goal   Contoso plans to upgrade to Skype for Business Server 2015 during the next six months. Contoso must deploy all of theconferencing and edge services. Contoso must also configure federation with its parent company, which is named Proseware Inc. Proseware is located in Europe and has a Lync Server 2010 infrastructure Contoso must minimize hardware and software purchasingcosts. while guaranteeing performance levels for all Skype for Business Server 2015 workloads. Planned Changes   Contoso plans to implement the following workloads in the Skype for Business Server 2015 deployment: The FQDNs of the edge services will be configured as shown in the following table.   Technical Requirements   Contoso identifies the following technical requirements for the planned deployment: Security Requirements   Contoso identifies the following security requirements for the planned deployment: QUESTION 18 Hotspot Question   You need to configure the required Domain Name System (DNS) record to support federation.   How should you configure the DNS record? To answer, select the appropriate options for the DNS record in the answer area.   Answer: QUESTION 19   You need to configure the Skype for Business Server 2015 infrastructure to meet the security requirements for the human resources department.   The solution must minimize administrative effort.   What should you do? A.   Modify the global external access policy.   B.   Create a new user-level client policy.   C.   Create a new user-level external access policy.   D.   Modify the Access Edge Configuration settings. Answer: C   QUESTION 20   Drag and Drop Question   You need to identify the cause of the authentication issue for the pilot users.   Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.   Answer: QUESTION 21 Hotspot Question   You need to ensure that the Skype for Business Server 2015 infrastructure meets the security requirement for conferences.   In Skype for Business Control Panel, which setting should you modify? To answer, select the appropriate setting in the answer area.   Answer: QUESTION 22   You need to identify the minimum number of required public IP

addresses for each Skype for Business Server 2015 component.   How many public IP addresses should you reserve for each component? (To answer, select the appropriate number servers in the answer area.)   A.   Edge Servers per site: 0   B.   Edge Servers per site: 1   C.   Edge Servers per site: 2 D.   Edge Servers per site: 3   E.   Front End Servers per site: 0 F.   Front End Servers per site: 1   G.   Front End Servers per site: 2 H.   Front End Servers per site: 3   I.   Office Web Apps servers per site: 0 J.   Office Web Apps servers per site: 1   K.   Office Web Apps servers per site: 2 L.   Office Web Apps servers per site: 3   M.   Microsoft SQL Servers per site: 0 N.   Microsoft SQL Servers per site: 1   O.   Microsoft SQL Servers per site: 2 P.   Microsoft SQL Servers per site: 3 Answer: CHKP   Explanation: Contoso must minimize hardware and software purchasing costs, while guaranteeing performance levels for all Lync Server 2013 workloads. If a single component fails, all Lync services must remain available without the need for manual intervention. Performance degradation is acceptable during a component failure state.   For the number of users, 3 FE servers are required. In the event of a failure, one server could not handle 15,000 users.   SQL mirroring is the recommended database HA solution in Lync 2013. To avoid manual intervention, you need a third server to act as a witness server.   You could use a failover cluster using two servers but this tends to be more expensive in terms of hardware cost.   QUESTION 23   You need to identify the dial-in conferencing configurations for sales department users.

Which two configurations should you use? Each correct answer presents part of the solution A.   Create a user-level conferencing policy. Assign the conferencing policy to the sales department users.   B.   Create a user-level dial plan. Assign the dial plan to the sales department users.   C.   Create a new dial-in access number. Assign the dial-in access number to a dial-in conferencing region.   D.   Create a user-level voice policy. Assign the voice policy to the sales department users.   E.   Create a new meeting configuration. Assign the meeting to a site. Answer: BC   Explanation: A. Create a user-level conferencing policy. Assign the conferencing policy to the sales department users.   B. Create a user-level dial plan. Assign the dial plan to the sales department users.   C. Create a new dial-in access number. Assign the dial-in access number to a dial-in conferencing region.   D. Create a user-level voice policy. Assign the voice policy to the sales department users.   E. Create a new meeting configuration. Assign the meeting to a site.   QUESTION 24   Three months after you deploy Skype for Business Server 2015, you must modify the configuration to meet the technical requirements.   Which Skype for Business Management Shell cmdlet should you run? A.   Set-CsMobilityPolicy   B.   Set-CsClientVersionPolicy   C.   Set-CsDeviceUpdateConfiguration   D.   Set-CsClientPolicy   E.   Set-CsClientVersionConfiguration Answer: C   Case Study 5 - Litware, Inc. (Question 25 - Question 30)   Overview   General Overview   Litware, Inc., is an international manufacturing company that has 4,000 employees. The company has a sales department, a marketing department, a research department, and a human resources department.   Litware has a partner company named Fabrikam, Inc. Fabrikam has an office in Paris. Fabrikam uses a XMPP-based instant messaging (IM) solution. Physical Locations   Litware has seven offices located throughout North America and Europe.   Litware has two data centers. The data centers are located in New York and London.   All communications for the North American offices are routed through the New York data center. All communications for the European offices are routed through the London data center.   The number of users in each office is shown in the following table.   Existing Environment   Active Directory Environment   Litware has an Active Directory Domain Services (AD DS) forest named litwareinc.com.   The forest contains a single domain. All domain controllers run Windows Server 2008 R2.   Each office contains five domain controllers. Each office is configured as an Active Directory site. Lync Server Environment   Litware has a Lync Server 2013 infrastructure that contains two servers in the New York office. The servers are configured as shown in the following table.   The SIP domain is litwareinc.com.   Litware has a Microsoft Exchange Server 2013 organization. Problem Statements   Users in the London office report poor video quality during conferences. Requirements   Business Goals   Litware wants to minimize the costs associated with purchasing hardware and software. Planned Changes   Litware plans to migrate the Lync Server 2013 infrastructure to Skype for Business Server 2015. The migration will have a coexistence period of six months.   Litware plans to implement the following components as part of the planned migration: - Persistent Chat   - Unified contact store   - Enterprise Voice for all users   - A central site in each data center   - A branch site in each branch office   - A Front End pool in each central site   - Skype for Business Phone Edition devices   - Pool pairing Litware plans to create a federation relationship with Fabrikam. Technical Requirements   Litware identifies the following technical requirements for the planned migration: - Users must be able to use all Skype for Business Server features if a single server fails.   - Users must be able to connect to the Skype for Business Server infrastructure if a single

central site fails. - Members of a group named Temp_Contractors must be prevented from using Skype for Business when they connect remotely. - Only users in the human resources department must be able to access and discover a persistent chat room named HR Confidential. Security Requirements Litware plans to deploy remote access. Some users work remotely from their customers' offices, which have firewall restrictions. All of the remote users must be able to connect to the Skype for Business Server 2015 infrastructure by using TCP port 443. QUESTION 25 Drag and Drop Question You need to move the Central Management store during the planned migration. Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.   Answer: QUESTION 26 You need to plan for the implementation of the DHCP configurations for the Skype for Business Phone Edition devices. Which three configurations should be applied to the Skype for Business Phone Edition devices from DHCP? Each correct answer presents part of the solution. Choose three. A.   the IP address of a time server B.   the IP address of a Mediation Server C.   the URL of the certificate provisioning service of the Skype for Business Server pool D.   the SIP domain E.   the FQDN of the Lync Server pool registrar Answer: ACE QUESTION 27 You need to implement the planned unified contact store. Which three actions should you perform? Each correct answer presents part of the solution. Choose three. A.   From a server that has Skype for Business Server 2015 deployed, run the New- CsPartnerApplication Skype for Business Management Shell cmdlet. B.   From a server that has Exchange Server 2013 deployed, run the ExchUCUtil.ps 1 script. C.   From a server that has Skype for Business Server 2015 deployed, run the Set-CsUserServicesPolicy Skype for Business Management Shell cmdlet. D.   From a server that has Exchange Server 2013 deployed, run the Configure- EnterprisePartnerApplication.psI script. E.   From a server that has Skype for Business Server 2015 deployed, run the Set- CsClientPolicy Skype for Business Management Shell cmdlet. Answer: ACD QUESTION 28 Drag and Drop Question You have a Skype for Business Server 2015 environment. You plan to deploy a Persistent Chat server You need create the chat room for the Human Resources department. Which three actions should you recommend? To answer, move the three appropriate actions from the list of actions to the answer area and arrange them in the correct order.   Answer: QUESTION 29 You are evaluating a disaster recovery solution for the Front End pools. You need to recommend the solution for restoring access to the Central Management store if a Front End pool fails. Which Skype for Business Server 2015 cmdlet should you run? A.   Invoke-CsPoolFailover B.   Invoke-CsManagementServerFailover C.   Import-CsConfiguration D.   Move-CsManagementServer Answer: B QUESTION 30 Drag and Drop Question You are planning the Skype for Business Server 2015 migration. You need to identify the management tools that must be used to achieve the following migration tasks during the coexistence period: - Move users to Skype for Business 2015. - Add Skype for Business servers to the environment. - Remove Lync Server 2013 servers from the environment. Which tools should you use? To answer, drag the appropriate management tools to the correct migration task in the answer area. Each tool may be used once, more than once, or not at all. Additionally, you may need to drag the split bar between panes or scroll to view content.   Answer: Lead2pass are committed on providing you with the latest and most accurate 70-334 exam dumps. Our 70-334 dump is rich in variety. We offer 70-334 PDF dumps and 70-334 VCE dumps. We ensure you can pass the 70-334 easily. Welcome to Lead2pass.com. 70-334 new questions on Google Drive: https://drive.google.com/open?id=0B3Syig5i8gpDMkdGbC1sQk5INVk 2017 Microsoft 70-334 exam dumps (All 88 Q&As) from Lead2pass: http://www.lead2pass.com/70-334.html [100% Exam Pass Guaranteed]
